

Flexa-rail™ System

Generated on 19.10.2018

Detailed description

The Flexa-rail™ tubular railing system is the answer to play areas and recreation grounds or any application where the ground is uneven, as the Flexa-rail™ system removes the need for stepping panels meaning that the panels self-rake to follow the contours of the ground. This system is available in a large range of styles from the standard bow-top through to vertical bar with spearhead finial, with the most popular choice being the Bowtop Playsafe system for play areas and playgrounds.

Features:

- Follows ground contours, so no stepping is required.
- Large range of styles, from standard bow top to spearhead finial.
- RAL colours available.

Applications:

- Playgrounds.
- Recreation grounds.
- New build housing.
- Industrial sites.

Product guidance - As Standard

Diameter (of tubular bars):

25.4 mm.

Horizontal rail:

55 x 52 mm.

Options

Colour and finish:

Polyester powder-coated green RAL 6005 or black RAL 9005 as standard. Full spectrum of colours available subject to quantity and price.
